Alcon Experience Center

Welcome to the Alcon Experience Center. We are thrilled to be able to offer you an opportunity to learn about Alcon and all that we do for our associates, professional partners and most importantly the millions of patients globally who are touched by our products every day.

This Center represents Alcon's commitment to enhance sight and improve people's lives. It is our first comprehensive eye health training and education center that integrates products and technologies from our business divisions Alcon Surgical and Alcon Vision Care.

With more than 36,000 square feet of space, visitors benefit from immersive training and educational experience using the latest advances in ophthalmology and optometry. The Alcon Experience Center offers:

- A fully-equipped optometric training area with exam lanes to simulate an actual practice environment
- Enhanced wet labs for training in the ophthalmic surgical environment
- A variety of interactive and innovative cataract, retina, and Lasik technologies to create a world-class training experience
- An interactive digital technology experience throughout the center

In addition to providing hands-on training for Alcon customers and associates, Alcon hosts university students as part of its efforts to promote education in science, technology, engineering, and math (STEM).

We look forward to utilizing the Alcon Experience Center to help advance innovation in eye care and deliver on our purpose of helping everyone "See Brilliantly."

● Main Reception

As the entry point to the Alcon Experience Center, the Main Reception is the information hub for all guests. The beautiful, modern venue features a 17 x 10 interactive microtile digital wall, allowing guests to learn more about Alcon's commitment to innovation in eye care.

● Clinic

This space includes three examination lanes that simulate an actual practice environment, and are utilized to train students, residents, and practitioners on specialized fitting techniques with Alcon Vision Care products.

● OTC Innovation Studio

Our collaborative innovation space showcases current retailer eye care sections. The space allows us to bring Shoppers, Retailers, and Alcon Sales and Marketing teams together to test and validate various on and off-shelf merchandising concepts across our over-the-counter (OTC) portfolio.

● Surgical Suite

Designed to replicate the environment of an Ophthalmic Surgery Suite, this area houses a fully equipped Operating Room (OR), as well as a refractive laser suite. The OR features the most advanced cataract and vitreoretinal surgical technologies, including a LenSx® femtosecond laser, Centurion® Vision System, a Constellation®, NGENUITY® 3-D viewing system, a LuxOR® Revalia™ Ophthalmic Microscope along with the ARGOS® Biometer and ORA®. The refractive laser room showcases Alcon's WaveLight® Refractive Suite, featuring the EX500 excimer laser and the FS200 femtosecond laser. Outside the rooms is a lobby area housing diagnostic equipment ready to demonstrate the advantages derived by the integrated approach employed by the cataract and refractive technologies, as well as the Clareon® IOL portfolio.

● Product Showcase

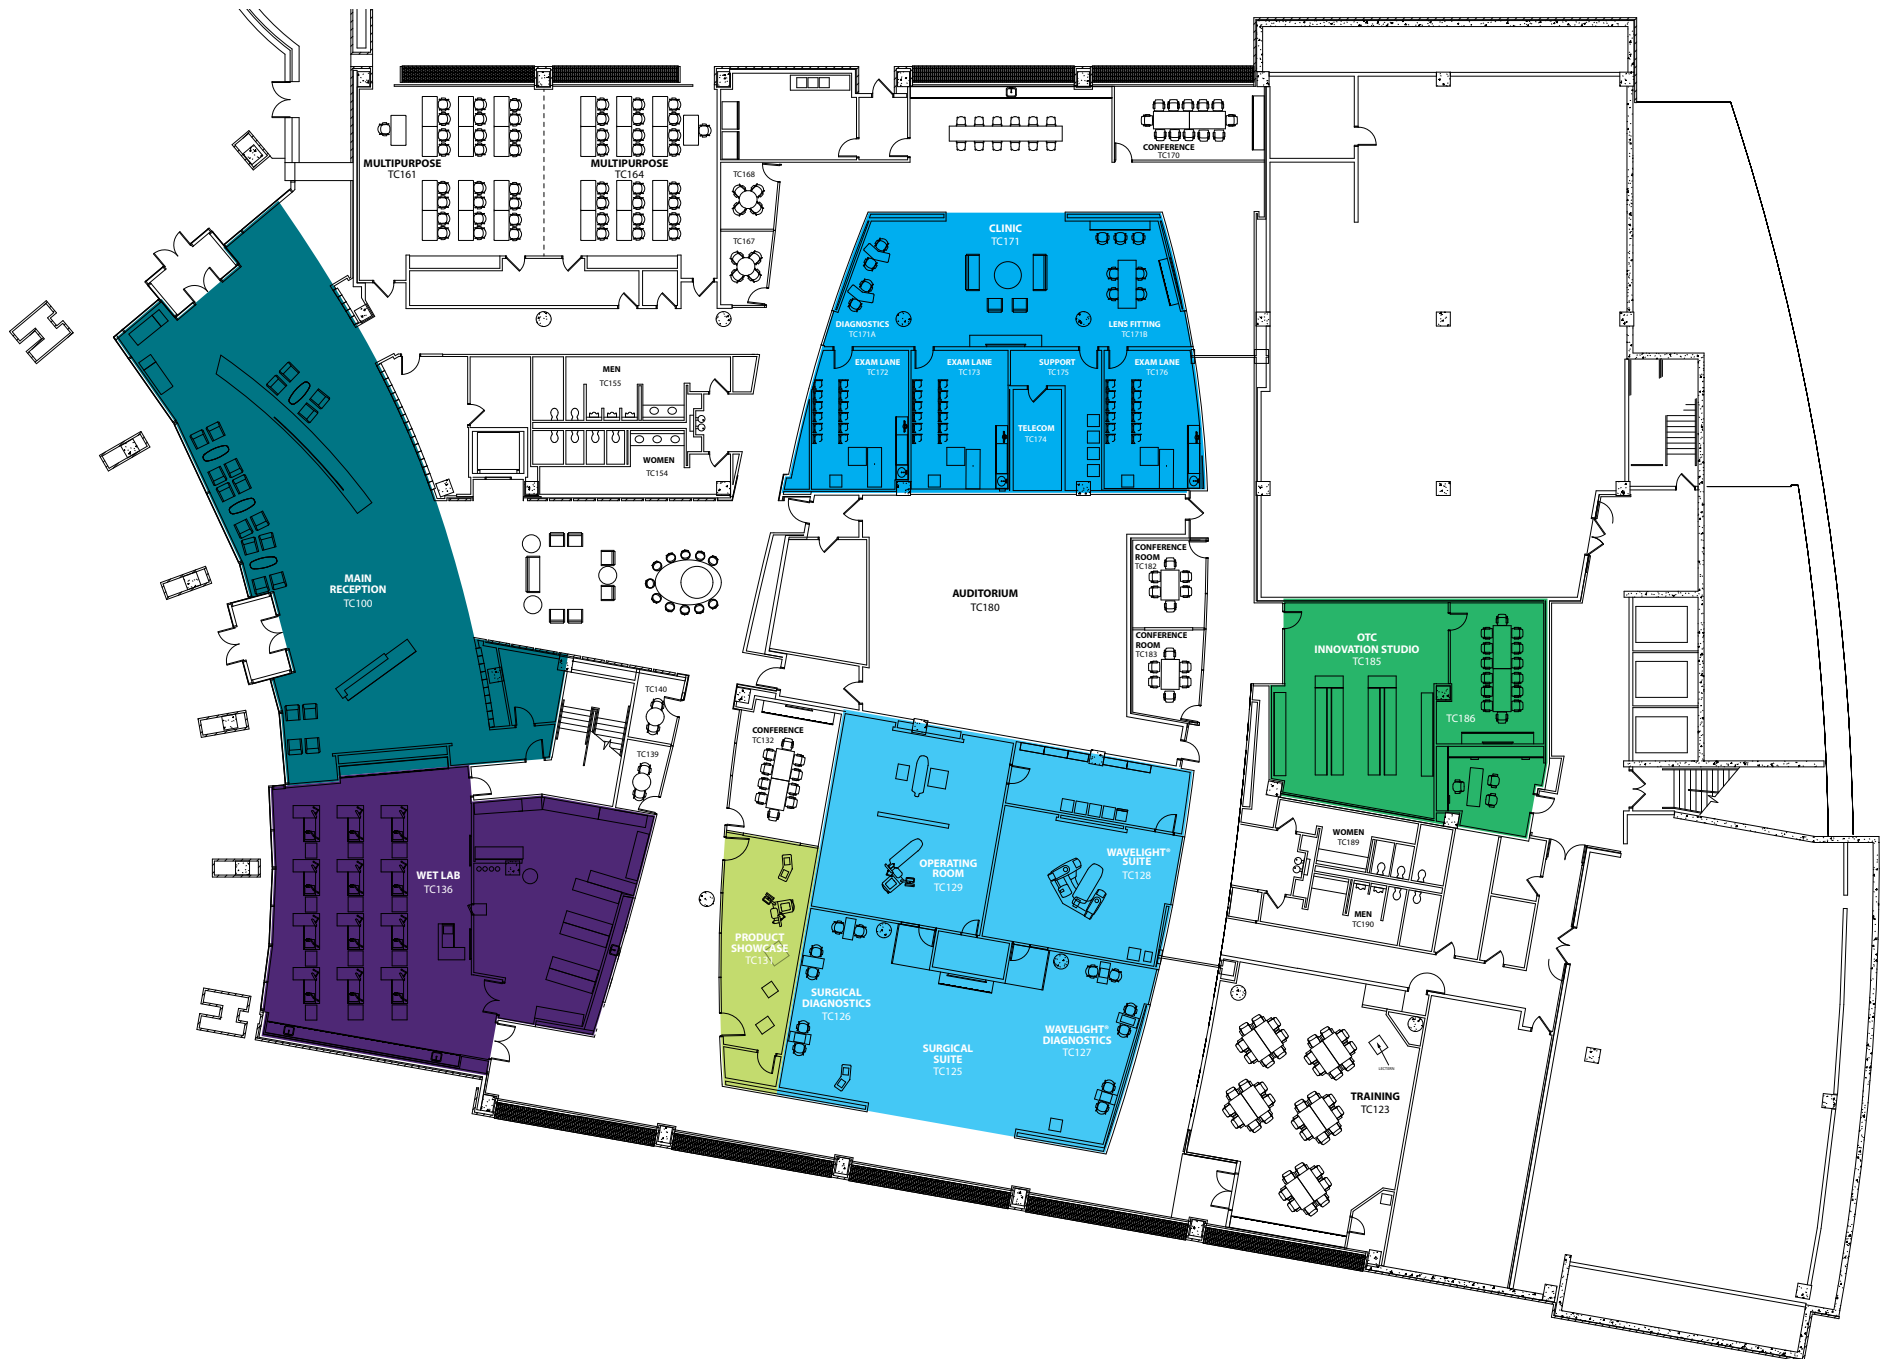

This room displays Alcon's advanced eye care products, including the full cataract refractive suite.

● Wet Lab

Featuring 12 state-of-the-art stations each outfitted with a microscope, a Centurion® Vision System, as well as the most advanced accessories, instrumentation, and disposables, this area provides the ideal environment to enable guests to experience Alcon's surgical technology through hands-on training and interactive learning sessions.
